

SAVE TIME AND MONEY

Fighting algae in your backyard swimming pool can be time consuming and costly. Thankfully, GLB Pool & Spa offers a powerful team of easy-to-use products with a proven track record of maintaining clean, clear pool water.

GLB stands behind these products by offering its **No Algae. Guaranteed.** program. Simply follow our program between Memorial Day and Labor Day as outlined inside. If algae does invade your pool, we'll replace your products for free.

Fighting algae is now as **EASY** as 1-2-3!

- 1. Shock oxidize with Oxy-Brite® or Shoxidizer™**
- 2. Treat with Algimycin® 2000**
- 3. Sanitize with GLB chlorine or bromine products and maintain proper water balance**

How easy is that?

Here's how the guarantee works...

- ✓ **The GLB "No Algae. Guaranteed." Program applies to residential in-ground or aboveground pools of up to 40,000 gallons during a maximum swimming season beginning Memorial Day and ending on Labor Day.**
- ✓ **Professional water testing by a GLB dealer is required prior to participation and at least every four weeks thereafter.**
- ✓ **Pool Owner must maintain proper sanitizer and balancer levels with adequate filtration and water circulation. Consult your GLB pool dealer or owner's manual for additional details. **Correct levels are:** pH 7.2-7.8, Total Alkalinity 80-120 ppm, Free Chlorine or Total Bromine 1-3 ppm**
- ✓ **Apply Algimycin 2000 and Oxy-Brite or Shoxidizer as specified on the product labels.**
- ✓ **Brush and vacuum pool weekly.**
